*Photographs • June 7 - August 11, 2017*

I'm fortunate to have been able to extensively travel the world and photograph many of its creatures. I enjoy sharing my adventures with others through photography. Most of my photo trips are into the jungles and wilderness in pursuit of all things wild. Nature and all its creatures hold a special fascination for me, as do the people of remote places. I've accumulated photography from over 70 countries on seven continents over the past fifteen years since my retirement.

I have over a hundred thousand pictures and many remain unprocessed. I've always said that I'd get around to processing them when I was forced to slow down. At the beginning of 2016 I said it was now time to get some of the photos out of the computer and share them with others. This showing of my photography, sponsored by the County of Santa Cruz Parks Department, is one of my initial effort at printing some of my work and making it available for other people to see. Finally, it is out of the computer and onto a wall for exhibit. Hope you enjoy the exhibit.
