

Integrated Pest Management

Want to control the pests and weeds in your garden without harmful chemicals? Join UC Master Gardeners Delise Weir and Trink Praxel to learn how Integrated Pest Management strategies can be used to control insects, weeds, vertebrate pests, and plant diseases while keeping health and environmental risks as low as possible. We will cover the basic steps of IPM which help you identify the pest and its impact, learn various control options available, and find the best, least toxic approach. All ages; under 16 with adult.

Sign up here: <http://mbmg.ucanr.edu/?calitem=410104&g=75603>
